Big Sandy Area Community Action Program is pleased to announce that long-time board member Eula Hall has been awarded the 2018 Altha Jo Hamilton Volunteer Award presented by Community Action Kentucky. Ms. Hall was presented the award in June at the annual Community Action Kentucky Conference held in Louisville.

The Altha Jo Hamilton Volunteer Award honors the spirit and achievement of someone who has embraced the power of volunteerism as an opportunity to improve lives. This award is named in memory of someone who chose to give back selflessly and promoted Community Action in those endeavors. Nominees for the Altha Jo Hamilton Volunteer Award should excel at advancing Community Action through volunteering or by going beyond the scope of their employment. They must be a volunteer, employee or board member of a local community action agency and be nominated by another volunteer, staff or board member.

Eula Hall is the personification of the Community Action Promise to improve communities. Thousands of lives in our region have been changed for the better because of her unassailable spirit and indomitable will. Big Sandy Area Community Action Program Executive Director Mike Howell said, “For 36 years she has served on the Big Sandy Area Community Action Program Board of Directors, but from the very beginning of the agency she had a hand in shaping the organization and its services, ensuring that low-income people had a stake and a say in their own communities. She goes above and beyond, every day of her life, to help the people she comes in contact with. She truly exemplifies what Community Action is all about.”

Throughout her life, Ms. Hall has successfully served as a voice for the poor of our region, often speaking truth to power in order to secure resources for people in need. She led the picket against the local school board to ensure that free and reduced price school lunches

Eula Hall accepted the Altha Jo Hamilton Volunteer Award at the Community Action Kentucky Annual Conference. Ms. Hall was joined by her friends John Rosenberg, Jean Rosenberg, Dr. & Mrs. Arnold Schector, daughter-in-law Sheila Hall, and her son Dean Hall.
Fall has arrived at our doors before we knew it, bringing the busy LIHEAP season and Head Start year with it, so this is the perfect time of year to take a look at what we have been up to over the busy summer season.

The annual Community Needs Assessment revealed that once again health care was voted as the top needed service, followed by housing, employment, and education. The stories we share with you in this issue will illustrate the work we have done and will continue to do to address the needs of our people.

Each year, our agency participates in the Volunteer Income Tax Assistance Program (VITA), which helps persons with disabilities, the elderly, and those making less than $54,000 to prepare and file their tax returns at no cost to them. During tax season this year, our agency completed 188 tax returns for area households. Through this work, we were able to ensure that $229,746 in tax refunds were returned to the local economy, including $85,193 through the Earned Income Credit (EIC). The EIC is designed to provide some relief to the working poor and helps families to maintain stability while they look for higher paying jobs.

For Community Action Month this year, our staff marked the occasion with a community service project. Due to the ongoing difficulties faced by the Martin County Water District, we chose to hold a water drive for Martin County to assist residents with the costs associated with buying bottled water. Through the month of May we were able to gather 30 cases of water bottles and 27 gallons of water. The donations were delivered to RAMP America, located at Tomahawk.

Once again our Senior Community Service Employment Program (SCSEP) participants exceeded their community service goals for the 2017-2018 program year. This year they topped their community service hours goal by 11 percent, topped their number served goal by over 30 percent, and met their goal of 25 unsubsidized placements. Let’s all congratulate Program Manager Mike Goble and his participants on another year well done.

Finally, we invite you to share these stories with your family, friends, and acquaintances so that we might spread the word of Community Action across the region.

We hope to connect with our neighbors who may be in need of our services and with businesses and individuals who want to contribute to lifting our home out of poverty.

**Mission Statement**

The mission of Big Sandy Area Community Action Program is to provide a vast array of services to assist individuals and families in obtaining self-sufficiency and, through collaborative efforts of community and organizational partnerships, improve the overall quality of life within the community.
Big Sandy Area Community Action Program is recognized statewide as providing the key leadership role in assisting individuals, families, and communities to achieve their highest potential.

Our Community Services Block Grant (CSBG) staff held the annual Community Health Fairs in July in Paintsville, Inez, Pikeville, and Langley. The free events assisted over 450 area residents to connect with healthcare providers and receive free health services and information. Attendance this year was nearly doubled this year when compared to the 2017 events.

Members of the public received free EKG's, non-fasting blood work, dental health screenings with x-rays, A1C checks, the hepatitis A vaccine, vision screenings, sports physicals for kids and teens, blood pressure checks, diabetic foot screenings, and information on diabetes prevention, health insurance options, all BSACAP programs, and much more.

Nearly 90 vendors ranging from local hospitals and health departments to family service organizations and addiction recovery centers from across the area helped BSACAP reach out to members of our communities and provide them with free health services and information.

Local businesses offered outstanding door prizes this year, including fishing passes, camping trips, movie tickets, gift cards, jewelry, and more, in addition to tickets to the Newport Aquarium, the Kentucky Horse Park, the Louisville Zoo, Cincinnati Reds baseball games, and the Creation Museum.

Alecia Conley-Knox, BSACAP’s Community Service Block Grant Manager, explained that each year the organization conducts a survey of area citizens in order to learn about their most pressing concerns. She stated that health has consistently ranked among the top five concerns for the last several years.

“These Health Fairs help us to reach out to some of the most vulnerable people in our community and provide them with information about their healthcare options and some of the vital health services they may need,” Conley-Knox said. “The priorities of the community are our priorities too and we are working alongside our partners in our communities to get people the services that are important to them.”

BSACAP Executive Director Mike Howell said, “The health of our citizens is the foundation of the educational and economic success of our region, and we want to work to ensure a strong and healthy workforce is available. We have a lot of generous partners in the local healthcare industry who understand the needs of our people and a lot of local businesses who have made donations to make these events successful. People across these sectors know that we have to rely on each other to make a better path forward.”

The Community Health Fair is funded, in part, by the Community Services Block Grant made available by the Cabinet for Health and Family Services and the U.S. Department of Health and Human Services.

**Mission Statement**

Our Senior Community Service Employment Program participants joined with the Big Sandy Council on Elder Maltreatment to celebrate World Elder Abuse Awareness Day on June 15th at the Mountain HomePlace in Staffordsville.

Elder abuse can come in the form of emotional, physical, and financial abuse. Everyone is encouraged to learn the signs of elder abuse and offer help by reporting the abuse to authorities.

You can report elder abuse by calling 1-877-597-2331, or by contacting local law enforcement.

Peggy Fields is retiring from her position as Model City Head Start Transportation Coordinator.

Peggy began her career with Big Sandy Area Community Action Program nearly twelve years ago when the agency became the direct operator of the Model City facility, but Peggy’s career with Head Start actually began much earlier.

Peggy began working for Model City Head Start in 1979. Throughout her thirty-nine year career with Model City, Peggy has worked as a Classroom Teacher, a Family Services Worker, and since 2006 as Transportation Coordinator.

Peggy Fields has spent over half of her life in service to the children and families of Model City Head Start. Throughout her long career Peggy has touched the lives of countless young children and their families. Peggy will be greatly missed by the children, parents, and her co-workers.

Transportation coordinator, teacher, and family services worker Peggy Fields (center-in chair) celebrated her well-earned retirement this summer at Model City Head Start in Pikeville. She enjoyed time with friends and colleagues and received a rocking chair as a parting gift and thank you for her decades of service.

Congratulations on your retirement, Peggy!
you don’t, it’s a good thing. You can put names to faces and have the opportunity to learn new things about the other services that are available.”
   “This is a new venture for our organization,” said Mike Howell, Executive Director of BSACAP. “We are excited to take on this new role within our community and we are even more excited to see how our partnerships can grow and strengthen.

BSACAP Deputy Director Wanda Thacker said, “Amy has expressed interest in staying in the area to work and serve the people here. She has overcome hardship and has shown a real passion for caring for other people. She is just the sort of person we’re looking for to carry the torch and we know she will do good things.”

Seven Community Service Block Grant scholarships were also awarded. These scholarships are available to students who reside in Floyd, Johnson, Martin, Magoffin, and Pike counties who demonstrate a financial need and write an essay explaining why their education is important and why they deserve the scholarship. This year’s winners are as follows:

Montana Adams of Prestonsburg will be studying Secondary Mathematics Education at Alice Lloyd College.

Jessica Hill of Betsy Lane will be studying Medical Information Technology at Big Sandy Community and Technical College.

Shawn Kidd of Drift will be studying Nursing at the Galen College of Nursing.

Caitlin Little of Pikeville will be studying Nursing at Pikeville College.

Reaford Ray Jr. of Elkhorn City will be studying at Bellevue University.

Evan Prince of Lovely will be studying Psychology at Morehead State University.

Juanita Vickers of Hardy will be studying Social Work at Morehead State University.

Wanda Thacker, Deputy Director of BSACAP, said, “Through these scholarships we are trying to give a little extra help for the expenses they might incur during the school year. We really applaud these students for making the choice to continue their education and we are grateful for the opportunity to encourage them on their way.”

The BSACAP scholarship application period begins in May and ends in June each year.

Scholarship funding is made possible by Community Services Block Grant with funds made available by the Cabinet for Health and Family Services and the US Department of Health and Human Services.

When it was discovered that approximately 90 percent of the water wells in her area were contaminated, she created the Mud Creek Water District to provide clean, running water to homes. When Community Action funds came to the mountains, she fought to ensure the inclusion of low-income people in the decision making, and to this day ensures that our agency stays true to its mission.

She is a pioneer for health in eastern Kentucky and a staunch advocate for the poor. She founded the Mud Creek Clinic, now known as the Eula Hall Health Center, in 1973 and raised thousands of dollars to bring medical services to her area. The clinic now hosts medical, dental, optometry, pharmacy, and behavioral services, along with a food bank.

With her example and her guidance, Big Sandy Area Community Action Program lives up to its promise to truly serve the people of our communities. Howell said, “Ms. Eula is an example to all of us who want to serve our communities, and it is a privilege to serve alongside her.”

**Vision Statement**

Big Sandy Area Community Action Program is recognized statewide as providing the key leadership role in assisting individuals, families, and communities to achieve their highest potential.
Serving the Big Sandy Area since 1965.

This project is funded, in part, under a contract with the Cabinet for Health and Family Services with funds from the Community Services Block Grant Act and the U.S. Department of Health and Human Services.

An equal opportunity employer.
